

State of Alaska – Office of the Governor — 34th Alaska State Legislature – Second Session
DEPARTMENT REVIEW – PASSED LEGISLATION

BLUE SHEET

Blue Sheets are a department's final bill analysis and provides the Commissioner an opportunity to weigh in on legislation that has passed, with a recommendation to the Governor on action that may be taken– to enact the bill, to veto the bill, or to allow the bill to become Law without signature (LWOS). Much of the information requested in the Blue Sheet can be taken from the department's bill analyses (BA), which were initially submitted at the time the bill was introduced and updated throughout the legislative process.

Blue sheets are due to the GLO three days after the enrolled bill appears on basis, or sooner by request.

Department: DNR

Date: 5/20/2026

Bill Number: SB 230

Short Title (as it appears on BASIS): REFUGES/HABITAT/PUBLIC USE AREA

What action do you recommend the Governor take?

Select one.

☒ **SIGN** ☐ **VETO** ☐ **LWOS**

Action Justification – Why do you recommend the above action?

Please be specific.

This bill updates and corrects the statutory boundary description of the Jonesville Public Use Area, adding an inadvertently omitted parcel and removing Matanuska-Susitna Borough lands to ensure the legal boundaries align with the intended state-managed public lands.

What does this Bill do?

In addition to providing a succinct bill summary, please also consider the following: Why is this bill needed? How does it specifically change department programs? What is the anticipated impact on the public, the private sector? Does this bill align with the priorities of Governor Dunleavy?

This legislation corrects a small technical omission in the statutory land description of the Jonesville Public Use Area. A section of land that was intended to be included was inadvertently left out of the statutory language, and this legislation ensures the legal description aligns with the original legislative intent. The legislation aligns with the Governor's priorities because it preserves recreational access, protects fish and wildlife habitat, and improves public safety.
